Professional Summary

Highly motivated and skilled Software Engineer with a strong focus on Frontend Development and AI, Proficient in building responsive, user-friendly web and mobile applications using React and Flutter with three years of experience, Passionate about leveraging AI technologies like NLP and Computer Vision to solve real-world problems and create software products ,with a growing experience in data analysis ,and experienced in UI/UX design .

Technical Skills

Frontend	React, Flutter, HTML, CSS, JavaScript, TypeScript, TailwindCSS
Mobile Dev	Flutter, Dart, Firebase
AI/ML	NLP, Computer Vision, Machine learning , Deep learning ,Data Mining , TensorFlow, PyTorch, OpenCV,scikit ,
UI/UX	Figma
Languages	Python, JavaScript, Java, Dart, C#
Tools	Git, Postman, Firebase

Top Projects

Interactive Surface	<p>Developing an AI-powered interactive surface using Computer Vision,Involving camera calibration, object detection,Arduino hardware, and real-time interaction.</p> <p><i>Technologies: Python, OpenCV, TensorFlow,Arduino, Flask, Dotnet,Yolo,Pytorch</i></p>
Customer Segmentation	<p>A data analysis project exploring the mall customer dataset to get a good read on the customers that visit the mall, by exploring many info provided I used clustering methods to give a thorough analysis on the customer .</p> <p><i>Technologies: Python,sklearn,seaborn,pandas</i></p>
E-Commerce App	<p>Built a fully functional mobile e-commerce application with a focus on performance and user experience.</p> <p><i>Technologies: Flutter,GetX, Firebase, laravel,</i></p>

Score AI-powered employee tracking and evaluation system that assigns points based on activity recognition.
Technologies: Python, YOLO, Object Tracking, Face Recognition, Flutter, Laravel

Work in Progress - Social Media App (React + Firebase) - Employee Management System (React + Laravel)

Education

Degree Bachelor degree in computer science as an Ai specialist

Certifications RISE-MICCAI Summer school attendance

Kaggle data science

Languages

Primary Arabic
Secondary English

Interests

- Exploring new AI technologies and frameworks
- Leetcode and coding challenge
- Project management
- Reading blogs and papers about AI
- UI/UX design and trends
